REQUEST TO CORRECT ERRORS TO THE FILING RECEIPT

AND

REQUEST FOR REFUND UNDER CFR § 1.26

There are three errors on the Filing Receipt in the instant application. The errors are: 1) the Total Number of Claims, 2) the Independent Claims and 3) the Filing Fee Received.

1) The total number of claims in the instant application are only those claims included in the Preliminary Amendment of this Divisional Application. The total number of claims in the Preliminary Amendment is 47 claims, not 67 as shown in the Filing Receipt.

2) The total number of independent claims in the instant application are only those claims included in the Preliminary Amendment of this Divisional Application. The total number of independent claims in the Preliminary Amendment is 4 claims, not 15 as shown in the Filing Receipt. Claims 1, 40, 53 and 63 are independent claims.

3) The filing fee for the instant application should be corrected to be \$1342.00, not \$2648.00 as shown on the Filing Receipt. The correct fee includes the \$770.00 basic filing fee, the extra claims fees of \$572.00 for 4 independent claims and 47 total claims (\$86 for one extra independent claim and \$486 for 27 extra claims), which total should be \$1342.00. Accordingly, a credit of \$1306.00 should be made to Deposit Account 130010 (IO-1095D1).

As evidence of the claims status for the instant application, only the claims listed in the Preliminary Amendment can be part of this Divisional Application under the Revised Amendment Practice of 37 CFR 1.121. Revised CFR 1.121 clearly cancels claims not included in the Preliminary Amendment to this application whether they could have even been construed as pending or not. Claims 7 through 26 are not listed in the Preliminary Amendment and so can not be part of the instant Divisional Patent Application.

The Revised Amendment Practice for CFR 1.121, which was effective July 30, 2003, noted that:

STRICT COMPLIANCE WITH THE REVISED 37 CFR 1.121 IS REQUIRED AS OF THE EFFECTIVE DATE (July 30, 2003). [Emphasis in the original.]

The amendment has been accepted; therefore the instant Preliminary Amendment strictly complies with Revised 37 CFR 1.121.

As stated in Revised CFR 1.121 (II)

A) Amendments to the claims: Each amendment document that includes a change to an existing claim, cancellation of a claim or submission of a new claim, **must include a complete listing** of all claims in the application. [Emphasis in the original.]

The Preliminary Amendment of the instant application includes a complete listing of all claims in the application.

Revised CFR 1.121 (II)(A) goes on to state for **Amendments to the claims:**
The claims in the listing will replace all prior claims in the application.
[Emphasis added]. Therefore, while claims 7 through 26 should never have been considered pending in the application, had they been pending in the application, the non-inclusion of claims 7-26 in the Preliminary Amendment would have effectively cancelled them under Revised CFR 1.121, thereby obviating their inclusion in the filing fees determination.

Please change your records and issue a new filing receipt to reflect the correct number of total claims in the application as 47, the number of independent claims as 4, the total filing fee as \$1342.00.

Please credit Deposit Account 130010 (IO-1095D1) in the amount of \$1306.00.

No fee is believed to be due for this petition. Please charge any fee if required or apply any credit, for the filing of this petition to Deposit Account No. 13-0010 (IO-1095D1).

Respectfully submitted,

Preliminary Class

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
